Section 2 - Contact Information

Important Instructions - Please Read

Contact information must be provided for *each* of the following positions as indicated below:

1. Principal Executive Officer, Chief Elected Official or other qualified individual (per GP-0-08-002 Part VI.J).
2. Duly Authorized Representative (Information for this contact must only be submitted if a Duly Authorized Representative is signing this form)
3. The Local Stormwater Public Contact (required per GP-0-08-002 Part VII.A.2.c & Part VIII.A.2.c).
4. The Stormwater Management Program (SWMP) Coordinator (Individual responsible for coordination/implementation of SWMP).
5. Report Preparer (Consultants may provide company name in the space provided).

A separate sheet must be submitted for each position listed above unless more than one position is filled by the same individual. If one individual fills multiple roles, provide the contact information once and check all positions that apply to that individual.

If a new Duly Authorized Representative is signing this report, their contact information must be provided and a signature authorization form, signed by the Principal Executive Officer or Chief Elected Official must be attached.

For each contact, select all that apply:

- Principal Executive Officer/Chief Elected Official
- Duly Authorized Representative
- Local Stormwater Public Contact
- Stormwater Management Program (SWMP) Coordinator
- Report Preparer

I. Purpose of Annual Report to DEC and EFC

In accordance with Nassau County's Participation Agreement with the New York State Environmental Facilities Corporation ("EFC"), the County must provide an annual report to EFC and the Department of Environmental Conservation by April 1st of each year, providing details about the County's actual use of monies from the Fund in the Program. The first annual report on program activities was issued on March 15, 2022 and can be found [here](#).

The agreement states that the report should include, but not be limited to:

- a description of the status of the county's development, implementation and administration of the Program at the county level;
- a description of the outreach the county has undertaken to reach eligible property owners;
- a description of the number of applications received from property owners from March 1, 2019, to present, the number of septic system projects your county has approved for funding so far, the number of grant applications that the county has rejected, the number of septic system projects that have been completed, and the number and amount of grants that have been paid to property owners.

II. Grant Funding to date

The Nassau County Soil and Water Conservation District (District) has been delegated and authorized by Nassau County as the entity to administer the S.E.P.T.I.C. Grant program which provides up to \$20,000 to eligible applicants for the installation of a nitrogen-reducing IA OWTS and utilizes grant funds from the following sources:

1. State Funding: The Clean Water Infrastructure Act of 2017 established the "State Septic System Replacement Fund" and allocated \$75 million to support a multi-year program. Nassau County received notification from NY State Department of Environmental Conservation (DEC) and New York State Environmental Facilities Corporation (EFC) that \$4,000,000 has been awarded to Nassau County to date. If the S.E.P.T.I.C. Grant Program is successful, the County is hopeful to receive additional SSRP over the next several years.
2. County Funding: The County of Nassau has received and appropriated monies from the Coronavirus Local Fiscal Recovery Fund (CLFRF), established by Subtitle M of Title IX of the American Rescue Plan Act of 2021 (ARPA). Published CLFRF Program Guidance provides a nonexclusive listing of permissible uses for CLFRF funding, including making necessary investments in water, sewer, and broadband infrastructure. The County has dedicated \$4,000,000 in ARPA funds towards grants for the coordinated installation of Innovative and Alternative Onsite Wastewater Treatment Systems (IA OWTS), which constitute a necessary improvement and as such, are considered eligible projects pursuant to the terms of the Clean Water State Revolving Fund.

III. Nassau County's S.E.P.T.I.C. Grant Program Administration and Staffing

The Program is administered by the Nassau County Soil and Water Conservation District (the District) consistent with the Agreement currently in place between Nassau County and the State Environmental Facilities Corporation (EFC) and the Agreement currently in place between Nassau County and the Nassau County Soil and Water Conservation District. The District has received \$200,000 in administrative funds from the Long Island Regional Planning Council and an additional \$200,000 in CLFRF funding from Nassau County.

These administrative funds are used to cover the following:

- Retaining a professional consultant through to the end of 2023
- Hiring a dedicated Conservation Technician to assist the Program
- Covering some salary costs for the Current District Manager and two additional Conservation Technicians
- Covering certain IT upgrades that were deemed necessary to improve the ability and efficiency of the District to manage the program, the application component of which is entirely online.

IV. Nassau County's S.E.P.T.I.C. Grant Program Eligibility

Nassau County's Septic Environmental Program To Improve Cleanliness (S.E.P.T.I.C.) Grant Replacement Program is available to Property Owners meeting the qualifications of the [New York State Septic System Replacement Program Outline](#) published by the State Environmental Facilities Corporation in addition to the District's [Guidance Memo 1: Rules Implementing County and State IA OWTS Grant Assistance Program](#).

Eligible Property Owners may receive total grant funds of up to \$20,000 for the installation of a nitrogen-reducing IA OWTS. Property owners can apply online ([application link](#)) and can choose to either pay out-of-pocket for the installation and apply for reimbursement or elect to assign their grant award directly to the septic system Installer to avoid large out-of-pocket expenditures.

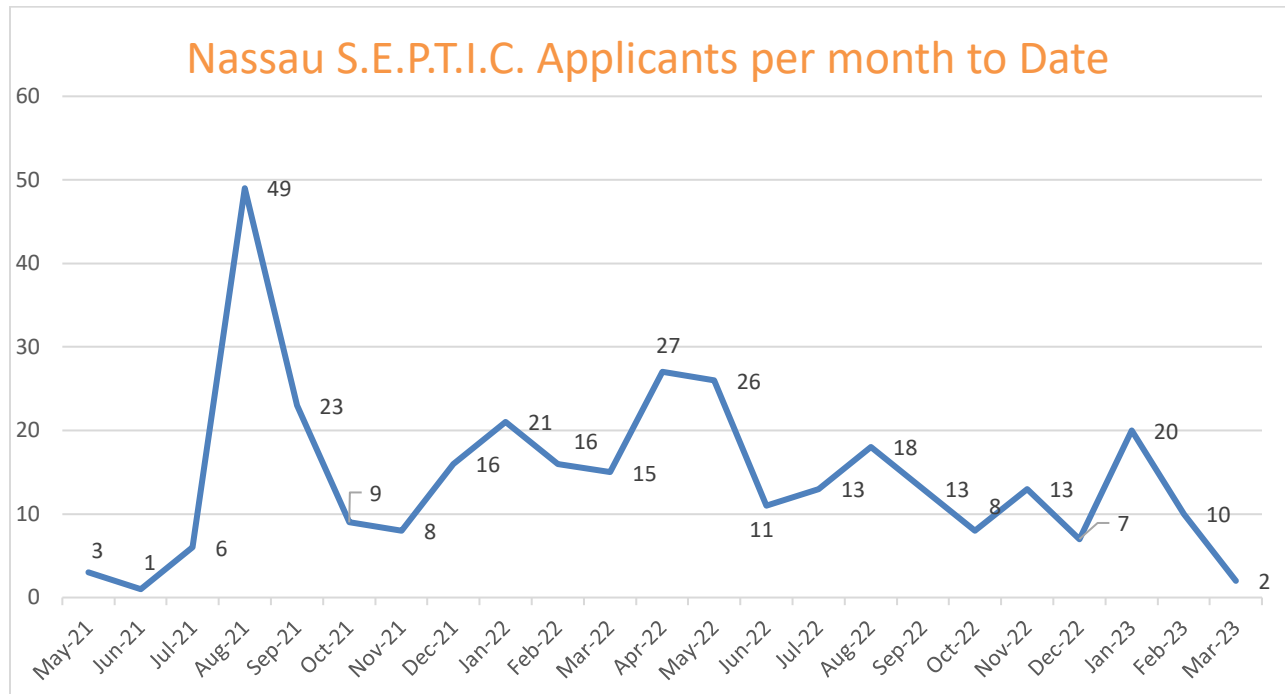

V. Public Education and Outreach in 2022

Outreach and public engagement has been key to the success of the S.E.P.T.I.C. Grant Program. Attachment I of this report includes a summary of all Public Education and Outreach to date. In 2022 the District celebrated EPA's Septic Smart Week in September of 2022 by holding a public presentation on September 19, 2022 at the Locus Valley Library as well as a site tour of successful grant funded installations on September 21, 2022. The District is looking to schedule a press conference in March of 2023 to announce additional funding and kick-off outreach for the year.

The Effect Outreach has on Program Applications Received

The table of applicants below shows the breakdown of grant applications received per month with call outs indicating significant Program events. The Program coverage received from Clean Water Vendor Day and the County Executive’s Press conference announcing an increase in funding in July and August of 2021 respectively, were by far the most successful at attracting applicants. The direct mailing campaign launched in the Spring of 2022 by the Nature Conservancy and North Shore Land Alliance was also very effective at gaining applicants in targeted priority areas. However, since the number of program applicants neared, or even at times exceeded the available funding, outreach efforts were minimal in the second half of 2022, with the exception of Septic Smart Week. Now that increased funding has allocated by the Nassau County Legislature, the District and Program partners will plan steady outreach throughout the remainder of 2023. Being cognizant of the most effective outreach methods to increase public awareness and interest in the Program is important when allocating resources for outreach events.

VI. Program Statistics to date

The graphics below summarize program statistics to date.

Nassau County S.E.P.T.I.C. Statistics as of March 8, 2023

Total # of applications received	382
Current # of active applicants	194
# of grant agreements pending	101

# of grant agreements executed	142
# of grants denied	139
# of duplicates	11
Number of installations	52
Number of pending installations	18

Table Illustrating NYS SSRP Funds Expended, Allocated, and Remaining Unallocated Funds

Total Amount of SSRP funds Available to Nassau County as of 3/7/2023	\$4,000,000.00
Total Amount of pending SSRP payments as of 3/8/2023	\$20,000
Total Amount of SSRP Funds Allocated as of 3/8/2023	\$1,420,000
Total Amount of Unallocated SSRP Funds as of 3/8/23	\$2,580,000
Average SSRP Grant Award	\$10,000.00

Table Illustrating County ARPA Funds Expended, Allocated, and Remaining Unallocated Funds

Total Amount of ARPA funds Available to Nassau County as of 3/7/2023	\$4,000,000.00
Total Amount of pending ARPA payments as of 3/8/2023	\$20,000
Total Amount of ARPA Funds Allocated as of 3/8/2023	\$1,420,000
Total Amount of Unallocated ARPA Funds as of 3/8/23	\$2,580,000
Average ARPA Grant Award	\$10,000.00

Nassau County S.E.P.T.I.C. Applicants per Town / Village - 03/2023

VII. Installation Statistics

There have been 52 installations as of March 8, 2023. Five (5) systems were installed in 2021, forty-four (44) in 2022, and four (4) so far in 2023. The cost of the fifty-two (52) installations to date ranges between \$16,729.88 and \$69,950.00. The average design cost is \$2,500 and the average installation cost is \$27,998.54. Residents in Bayville and Sea Cliff have been the most active in the program with 31% of the installs occurring in Bayville and 10% in Sea Cliff. In regard to the technologies used, Four (4) of the five (5) accepted technologies have been installed in Nassau County. The Orenco AX-20 is the only system of the five that is not installed in Nassau. The FujiClean system is by far the most popular system in Nassau County representing over 70% of the systems installed. Fuji is followed by the Hydro Action AN series which represents approximately 13% of the market. These statistics are highlighted in the charts below.

Pie Chart Showing Installations by Technology

Graph Showing the Number of Installations by Town/Village

VIII. **Program Funding for 2023**

On July 7, 2022 Governor Kathy Hochul announced that Nassau County had been awarded \$2 million in SSRP funding for 2023. This funding was unanimously accepted and appropriated by the Nassau County Legislature on February 27, 2023 and provides an additional 200 State grants of up to \$10,000 for 2023. In response to this announcement, Nassau County proposed the allocation of an additional \$2 million in ARPA funding to match these grants. This ARPA funding was unanimously accepted and appropriated by the Nassau County Legislature on October 24, 2022. By combining these two funding sources again in 2023, the District can continue issuing grants of up to \$20,000 to eligible property owners looking to upgrade their existing septic system or cesspool with nitrogen-reducing IA OWTS. The District currently has enough funding for up to 248 installations in 2023. Anticipating the availability of long-term state funding, the District is in Discussion with Nassau County regarding additional funding to match State funding through 2026.

IX. **Program Goals for 2023**

The following represent key S.E.P.T.I.C. Program goals to increase the number of applicants and installations as well as build momentum in 2023:

1. Public Outreach and Engagement: with funding for 248 installations this year, the District will continue to work with the Nature Conservancy and the North Shore Land Alliance's Water Quality Improvement Program (WQIP) to assist with community outreach and engagement. Outreach and engagement activities planned for 2023 include press conferences; social media engagement, public presentations, direct mailings, and field demonstrations.
2. Town and Village Outreach: The District will continue to provide program overviews, updates, and technology information with local Towns and Villages. In addition, the District is available to work with these local jurisdictions on streamlined permitting and inspection and construction guidance. Finally, the District will provide assistance and guidance to Towns and Villages looking to develop and implement Wastewater Management Ordinances to require the use of IA OWTS in all or certain areas to attain community nitrogen reduction targets.
3. Septic System Inspection Manual: The New York State Department of Environmental Conservation (NYS DEC) conducted a survey of county health departments in NYS to assess the existing status of Septic System Inspections in NY. The results of the survey renewed interest in the development of consistent state-wide recommended inspection procedures. In addition, a December meeting with several of the Towns and Villages on Nassau's North Shore sparked local interest in both septic system inventory inspections and point-of-sale functional inspections. The District is working with their consultant to update and adapt the RI Septic System Inspection Check-up Handbook into a document specific to Long Island with the intent of making the resources available online free-of-charge so that they can be utilized throughout the Northeast region, with only minor edits needed for specific jurisdictions.
4. Finalize Guidelines for the Acceptance, Use, and Management for New Technologies: The District has drafted guidelines IA OWTS are to be properly installed, operated, regularly inspected, and routinely maintained in order to ensure maximum performance and system longevity. This guidance document establishes a process for the acceptance, use and management of nitrogen-reducing Innovative and Alternative Onsite Wastewater Treatment Systems (IA OWTS) as recommended by the New York State Department of Health (NYSDOH) and is expected to be implemented in April of 2023.
5. Development and Implementation of an IA Training Program: The District has drafted Rules and Regulations for Septic System Installer Licensing and hopes to work with the Nassau County Department of Consumer Affairs to finalize and implement the regulations in 2023. For conducting the training, the District is looking into partnering with the New England Onsite Wastewater Training Program (NEOWTP) at the University of Rhode Island to adapt and modernize existing IA OWTS training for Nassau County. NEOWTP has a history of conducting training on Long Island, they have held prior Septic System training classes in Nassau County and currently hold several classes per year specifically catered to the Suffolk County Reclaim Our Water Program.

MS4 Municipal Compliance Certification (MCC) Form

MCC form for period ending March 9, 2023

Name of MS4 VILLAGE OF KENSINGTON

SPDES ID
N Y R 2 0 A 4 5 2

Section 3 - Partner Information

Did your MS4 work with partners/coalition to complete some or all permit requirements during this reporting period? Yes No

If Yes, complete information below.

Submit a separate sheet for each partner. Information provided in other formats will not be accepted. If your MS4 cooperated with a coalition, submit one sheet with the name of the coalition. It is not necessary to include a separate sheet for each MS4 in the coalition.

If No, proceed to Section 4 - Certification Statement.

Partner/Coalition Name

M a n h a s s e t B a y P r o t e c t i o n C o m m i t t e e

Partner/Coalition Name (con't.)

- MM5 E d u c a t i o n m o n i t o r i n g o f r u n o f f
- MM6 E d u c a t i o n

Additional tasks/responsibilities

- Watershed Improvement Strategy Best Management Practices* required for MS4s in impaired watersheds included in GP-0-08-002 Part IX.

Education and literature on stormwater runoff, watersheds, pet waste, pathogens, water fowl, Onsite Wastewater Treatment Systems (OWTS)

MANHASSET BAY PROTECTION COMMITTEE

Phase II Activities Undertaken
On Behalf of Member Municipalities
March 10, 2022 to March 9, 2023 Permit Year

Water Quality Trends

- Completed a DEC-approved Quality Assurance Project Plan (QAPP) for the 2022 water quality monitoring season. Funding for this project was provided from the New York State Environmental Protection Fund as administered by the New York State Department of Environmental Conservation.
- Completed two DEC-approved Data Usability Assessment Reports (DUARs): one for the 2022 water quality monitoring season and the other for data collected from 2016 through 2021. Reports covering that data are forthcoming. Funding for this project was provided from the New York State Environmental Protection Fund as administered by the New York State Department of Environmental Conservation.

MCM # 1 – Public Education and Outreach

Distributing educational materials and performing outreach to inform citizens about the impacts polluted stormwater runoff discharges can have on water quality.

- Continued a quarterly e-newsletter with 162 subscribers. A link to sign-up is posted on the Committee's website and on the Facebook page and an archive of all past mailings is here: <https://us17.campaign-archive.com/home/?u=df70a805d021557ae64c3aaa5&id=f7fd5c7f5f>. The Committee also generated a QR code for use at tabling events and on literature to access the newsletter sign-up form digitally. Three (3) newsletters were released in this reporting period (all were also automatically posted to the Committee's Facebook, Twitter, and Instagram pages):
 - Spring 2022: https://mailchi.mp/819608173a8e/spring_2022
 - Summer 2022: https://mailchi.mp/470002c79de1/summer_2022
 - Fall 2022/Winter 2023: <https://mailchi.mp/2a8d93fdd386/winter2023>
- The Committee created a landing page, manhassetbayprotectioncommittee.org/wqip.html, to support the development of a Water Quality Improvement Plan. This work is funded by a grant from the New York State Department of State under Title 11 of the Environmental Protection Fund.
- The Committee and its consultant have started the process of preparing a Community Outreach/Participation Plan for the development of a Water Quality Improvement Plan. This plan will lay out the method and process to encourage community participation in the planning process. The purpose of the outreach plan is to enhance public understanding of the watershed planning project and to encourage early and continued public participation in selecting, designing, and implementing the management measures. This work is funded by a grant from the New York State Department of State under Title 11 of the Environmental Protection Fund.
- The Committee and its consultant have prepared an initial vision statement that expresses an idea of what the watershed will become. The vision will set the tone of the watershed plan and will be used throughout the planning process. In addition, an initial set of watershed goals and objectives were also created to provide a realistic framework for

achieving the vision as well as help focus limited resources. This was published to manhassetbayprotectioncommittee.org/wqip.html. This work is funded by a grant from the New York State Department of State under Title 11 of the Environmental Protection Fund.

- Continued enhancing the Committee’s website in an effort to make the website more navigable and began exclusively using manhassetbay.net as the URL
- Continued to grow the Committee’s Facebook presence (<https://www.facebook.com/manhassetbay/>) and again participated in the #DontTrashLIS social media campaign run this past summer by the Long Island Sound Study and the member organizations of its Citizens Advisory Committee, which highlighted the problem of plastic waste to wildlife and water quality in Long Island Sound and the oceans. The Committee’s Facebook page has 440 followers (up from 379 last year).
- The Committee also maintains the following social media sites:
 - Twitter: <https://twitter.com/manhassetbaypc>
 - Instagram: <https://www.instagram.com/manhassetbaypc/>
 - YouTube: <https://www.youtube.com/channel/UCCoVUZAvyiQ-fsg8y6DiKSQ>
- Co-hosted a virtual public joint protection committee meeting with the Hempstead Harbor, Oyster Bay/Cold Spring Harbor, and Peconic Estuary Protection Committees, the Setauket Harbor Task Force, and Friends of the Bay which was held on May 12, 2022. A recording of the meeting is available on the Committee’s YouTube channel. The next joint meeting is planned for May 11, 2023.
- Staffed informational tables with educational pamphlets, giveaways, an interactive watershed model, and kids’ activities at the events listed below. This year’s giveaways included a canvas tote with the MBPC logo on one side and cartoon fish to color on the other. The Committee also approved the purchase of their own coastal watershed model.
 - Port Washington Public Library Earth Day event at Sunset Park (April 24, 2022)
 - Science Museum of Long Island’s “Live at Five” event (August 11, 2022)
 - Port Washington HarborFest (June 5, 2022)
 - Manhasset Al Fresco (September 18, 2022)
- The Children's Services Department of the Port Washington Public Library held a culminating event to wrap up its summer reading program, which was a marine life theme, on August 12, 2022. The Committee taught approximately 63 school-aged children about watersheds and watershed pollution and its impact on Manhasset Bay.
- The Committee purchased logo lapel pins to be used at various events as identifiers and as giveaways.
- Kept members and the general public apprised of updates and the existence of the Army Corps’ *New York New Jersey Harbor and Tributaries Focus Area Coastal Storm Risk Management Feasibility Study*, portions of which could have serious deleterious effects on Manhasset Bay, the surrounding communities, and Long Island Sound if constructed. It is not wholly clear that the Bay would not be affected by the Tentatively Selected Plan, as the Army Corps is using outdated studies to determine impacts on this area. To that end, the Committee:
 - Provided a comment letter to the Army Corps on the NY/NJ HATS report;
 - Attended several virtual (and one in-person) Army Corps’ public meetings and offered notes and perspective to Committee members and the general public.

- Forwarded numerous newspaper articles to municipal representatives and others on water quality and environmental issues important to Manhasset Bay. Some of these were also posted to the Committee's social media. Manhasset Bay and/or the Protection Committee were the subject of 12 news articles published during the reporting period. The list of news articles is attached.
- Planned and hosted the annual boat tour of Manhasset Bay for municipal officials on July 21, 2022. There were 27 attendees to this year's event. This annual event raises awareness of Manhasset Bay among participants.
- Distributed aluminum storm drain markers and glue to member municipalities for placement on storm drains.
- Started generating "Monthly Updates," which were sent out to interested members of the public about what the Committee had worked on in the month(s) previous.
- Responded to questions from both member municipalities and the public about the Army Corps' Feasibility Study, fish kills (summer 2022 was very hot), the MS4 program, where stormwater pollution comes from, why does the Bay smell, and other inquiries.
- Distributed educational brochures about stormwater pollution, watersheds, the Committee, feeding geese, organic gardening, impacts of pet feces on water quality, clean boating, storm drain markings, and other water quality related topics.
- Kept the municipalities up-to-date on trainings and other events.
- Monitored Nassau County sewage spill reports.

MCM #2 – Public Participation

Providing opportunities for citizens to participate in program development and implementation, including effectively publicizing public hearings and/or encouraging citizen representatives on a stormwater management panel.

- Held seven (7) Manhasset Bay Protection Committee meetings (open to the public) on March 24, 2022; April 28, 2022; June 9, 2022; October 20, 2022; November 3, 2022; January 19, 2023; and February 9, 2023. Meeting minutes were posted to https://manhassetbayprotectioncommittee.org/PDF_PUBLIC/Minutes/2022/ and https://manhassetbayprotectioncommittee.org/PDF_PUBLIC/Minutes/2023/
- Updated and distributed introductory folders for new committee member representatives in order to educate them on the Committee, stormwater, and regulations. The goal is to make new representatives comfortable in their new role.
- Expanded the annual volunteer beach clean-up into the spring and on two dates: April 3, 2022 at the Manorhaven Beach Town Park and May 7, 2022 at Bay Walk Park. A third event, scheduled in October, had to be cancelled on account of a hurricane. Despite rain at both events, all totaled, approximately 84 volunteers (adults, teens, and kids) picked up 100 pounds of trash. Additionally, this year's clean-up included a "fun patch" for all the children who participated and other giveaways, including informational brochures.
- Conducted a weekly water quality monitoring program (June through August) with North Hempstead Bay Constables and Nassau County Dept. of Health. The Committee's summer intern assisted in the collection and collation of this data. Funding for the 2022 water quality monitoring program was provided from the New York State Environmental Protection Fund as administered by the New York State Department of Environmental Conservation.
- The Committee created a landing page, manhassetbayprotectioncommittee.org/wqip.html, to support the development of a Water

Quality Improvement Plan. This work is funded by a grant from the New York State Department of State under Title 11 of the Environmental Protection Fund.

- The Committee and its consultant have started the process of preparing a Community Outreach/Participation Plan for the development of a Water Quality Improvement Plan. This plan will lay out the method and process to encourage community participation in the planning process. The purpose of the outreach plan is to enhance public understanding of the watershed planning project and to encourage early and continued public participation in selecting, designing, and implementing the management measures. This work is funded by a grant from the New York State Department of State under Title 11 of the Environmental Protection Fund.
- The Committee and its consultant have prepared an initial vision statement that expresses an idea of what the watershed will become. The vision will set the tone of the watershed plan and will be used throughout the planning process. In addition, an initial set of watershed goals and objectives were also created to provide a realistic framework for achieving the vision as well as help focus limited resources. This was published to manhassetbayprotectioncommittee.org/wqip.html. This work is funded by a grant from the New York State Department of State under Title 11 of the Environmental Protection Fund.
- Kept the general public apprised of updates and the existence of the Army Corps' *New York New Jersey Harbor and Tributaries Focus Area Coastal Storm Risk Management Feasibility Study* and public hearings. The Committee attended several public meetings and also provided comments to the Army Corps' on their tentatively selected plan.
- Distributed information on the Great Neck and Port Washington Water Pollution Control Districts' *Shed the Meds* collection programs, the Town of North Hempstead's STOP programs, and the Town's Sustainability classes and programs throughout the reporting period.
- Member of the Town of North Hempstead Waterfront Advisory Committee, whose meetings are also open to the public
- Served as the member representative for the Committee on the Long Island Nitrogen Action Plan's (LINAP) Nassau County Subwatershed Planning Advisory work group, Solute Transport Model Advisory work group, and Water Exchange Advisory Work Group.
- Assisted with the development of Nassau County's Nine-Element Watershed Plan
- Continued to provide representation to the Long Island Sound Study (LISS) Citizens Advisory Committee and the LISS Management Committee Watersheds and Embayments work group. In that role, continued work to establish water quality monitoring of embayments as a priority and to develop a mechanism for regular (non-grant) funding to support monitoring efforts. Additionally, the Committee was involved in several meetings with off-shore wind developers and expressed concerns on environmental impacts to Long Island Sound.
- Volunteered as a judge at the Envirothon competition for Long Island high school students on April 28, 2022. This competition was back in person after a hiatus due to the Novel Coronavirus pandemic.
- Began planning an upcoming joint protection committee symposium (public) with the Hempstead Harbor, Oyster Bay/Cold Spring Harbor, and Peconic Estuary Protection

Committees, the Setauket Harbor Task Force, and Friends of the Bay to be held virtually on May 11, 2023.

- Monitored changes in regulations and advised member municipalities about the release of DEC's ANPRM saline waters reclassification. The Committee also provided DEC with comments and data in response to the ANPRM.
- Joined the Coastal Resiliency Network, which aims to share information on sea level rise and coastal resiliency to and among communities on the Long Island Sound shoreline of New York.
- Attended NEIWPC's "LIS Seaweed Bioextraction Symposium" on May 18 & 19, 2022 to learn about possible techniques to reduce nitrogen pollution in Manhasset Bay.
- Advertised and attended various webinars, such as the MS4 Compliance & LID webinar on May 12, 2022,
- Advertised and attended the EPA webinar "Using Green Infrastructure to Prevent Flooding from Intensified Storms in NY/NJ area" on March 2, 2023
- Began planning for shellfish seeding of Manhasset Bay. This project is funded by a grant from the USEPA to the north shore protection committees.

MCM # 3 – Illicit Discharge Detection and Elimination

Developing and implementing a plan to detect and eliminate illicit discharges to the storm sewer system (includes developing a system map and informing the community about hazards associated with illegal discharges and improper disposal of waste).

- Conducted a weekly water quality monitoring program (May through August) with North Hempstead Bay Constables and Nassau County Dept. of Health.
- Included removing illegal downspout hook-ups as a "What You Can Do" tip on several newsletters and other publications.

MCM # 4 – Construction Site Runoff Control

Developing, implementing, and enforcing an erosion and sediment control program for construction activities that disturb 1 or more acres of land (controls could include silt fences and temporary stormwater detention ponds).

- Monitored changes in regulations and advised member municipalities about the release of DEC's ANPRM saline waters reclassification. The Committee also provided DEC with comments and data in response to the ANPRM.
- Bay constables watched for unusual discharges or conditions while conducting weekly water quality monitoring

MC # 5 – Post Construction Runoff Control

Developing, implementing, and enforcing a program to address discharges of post-construction stormwater runoff from new development and redevelopment areas. Applicable controls could include preventative actions such as protecting sensitive areas (e.g., wetlands) or the use of structural BMPs such as grassed swales or porous pavement.

- Monitored changes in regulations and advised member municipalities of public comment periods as described previously.
- Watched for unusual discharges or conditions while conducting weekly water quality monitoring (summer)

MCM # 6 – Good Housekeeping

Developing and implementing a program with the goal of preventing or reducing pollutant runoff from municipal operations. The program must include municipal staff training on pollution prevention measures and techniques (e.g., regular street sweeping, reduction in the use of pesticides or street salt, or frequent catch-basin cleaning).

- Committee members have shared information on which good housekeeping practices work through Committee meetings as well as changes to their good housekeeping programs.

FUTURE PLANS

- The Seabin, floating trash receptacle, has not yet been operational. The Committee's plan now is to partner with a marina to get it into the water and begin full operation this summer. Then, the Committee will use citizen science to catalog what is collected, and will also be preparing educational materials.
- Due to work on the QAPP, the Manhasset Bay Protection Committee was set back on the goals to finalize and publish the water quality report based on weekly monitoring data collected 2016 to 2018 and a bacteria trend report. These reports will be completed, but an exact date is unknown.
- Prepare articles for Village and other newsletters.
- Other activities as described above.

**MANHASSET BAY PROTECTION COMMITTEE
THIRD PARTY CERTIFICATION STATEMENT**

*Pursuant to
Permit # GP-0-15-003 pg. 18 Part IV.G Reliance Upon Third Parties*

In furtherance of the purposes set forth in the Manhasset Bay Protection Committee (“COMMITTEE”) Inter-Municipal Agreement of 2021, the COMMITTEE shall undertake, to the extent practicable, the following activities on behalf of its member municipalities within their collective jurisdictions in order to assist in the fulfillment of NYS Phase II regulations (New York State Pollutant Discharge Elimination System (“SPDES”) General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-15-003) provided that annual member dues and applied for grant funds (where applicable) are received:

Scope of Work:

Activities and Deliverables **may include, but are not limited to** the following:

Minimum Control Measure # 1 (Public Education and Outreach):

Prepare and conduct a public education and outreach program including the preparation of brochures and promotional giveaways, portable displays, presentations to community, business, educational, and/or stakeholder organizations, targeted mailings, press releases, articles for publication, an informational website, social media page, and educational signage.

Minimum Control Measure # 2 (Public Involvement and Education):

Conduct public meetings for members of the public and stakeholders at critical junctures on major projects, develop and maintain e-mailing and postal mailing lists to keep the public apprised and involved in projects undertaken by the COMMITTEE, organize and assist in beach cleanups and wetland plantings to the extent possible, conduct attitude and awareness surveys, maintain and foster inter-relationships with community organizations, business organizations, recreation organizations, educational institutions, environmental organizations, and various levels of government.

Minimum Control Measure # 3 (Illicit Discharge Detection and Elimination):

Conduct water quality monitoring to document trends and detect unexpected changes in water quality, record and report observations of identified or suspected illicit discharges to appropriate agencies, assist in and help coordinate responses to identified or suspected illicit discharges, and assist in the maintenance and updating of the county’s storm drain GIS mapping system.

M A N H A S S E T B A Y P R O T E C T I O N C O M M I T T E E

15 Vanderventer Avenue, Port Washington, New York 11050-3710

P: 516-869-7983 • E: mbpcExec@gmail.com

Minimum Control Measure # 4 (Construction Site Stormwater Runoff Control):

Assist member municipalities in identifying available construction site stormwater runoff control measures, requirements and procedures, and report any observed instances of stormwater runoff from construction sites to the member municipality and/or appropriate agency or agencies.

Minimum Control Measure # 5 (Post Construction Stormwater Management):

Assist member municipalities in identifying available post construction stormwater management control measures, requirements and procedures, and report any observed instances of post construction to the member municipality and/or appropriate agency or agencies.

Minimum Control Measure # 6 (Pollution Prevention / Good Housekeeping):

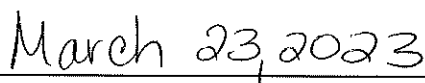

Assist member municipalities in identifying available pollution prevention / good housekeeping practices including, but not limited to information on pet waste management, Canada Goose control, household hazardous waste programs, and recycling programs.

Contracted Entity Certification Statement:

The Manhasset Bay Protection Committee understands that its member municipalities must comply with the requirements of New York State Pollutant Discharge Elimination System ("SPDES") General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-15-003) and any successor permit, and that it is unlawful for any person to directly or indirectly cause or contribute to a violation of water quality standards. The Committee agrees to provide, to the extent practicable, the above-described services on behalf of its member municipalities in order to assist them in the fulfillment of New York State Municipal Phase II requirements provided that annual member dues are received.

4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

CONTINUE PROVIDING RESIDENTS INFORMATION ON POLLUTION PREVENTION AND CONSERVATION THROUGH THE VILLAGE WEBSITE AND PARTICIPATION IN THE NASSAU COUNTY STORMWATER COALITION AND THE MANHASSET BAY PROTECTION COMMITTEE.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

THE OVERALL PROGRAM IS EFFECTIVE AND ACCESSIBLE. THE VILLAGE APPEARS FREE OF DEBRIS AND LITTER. RESIDENTS ARE PROVIDED INFORMATION ON WAYS THAT THEY CAN PREVENT POLLUTION THROUGH THE VILLAGE WEBSITE AND THE ACTIVITIES OF THE NASSAU COUNTY COALITION AND THE MANHASSET BAY PROTECTION COMMITTEE. DIRECT PAGE INTERACTIONS ARE QUANTIFIED.

C. How many times was this observation measured or evaluated in this reporting period?

		1	5
--	--	---	---

*(ex.: samples/participants/events)***D. Has your MS4 made progress toward this Measurable Goal during this reporting period?**
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

SUSTAIN AND MAINTAIN THE EXISTING PROGRAM AND CONTINUE AS A MEMBER OF THE NASSAU COUNTY STORMWATER COALITION AND THE MANHASSET BAY PROTECTION COMMITTEE.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

VILLAGE RESIDENTS WERE INVITED TO VIEW AND COMMENT ON THE SWMPAR THROUGH VILLAGE WEBSITE. ALSO, RESIDENTS WERE INVITED TO PARTICIPATE IN MEETINGS OF THE BOARD OF TRUSTEES, WHERE VILLAGE MATTERS ARE DISCUSSED. THE NASSAU COUNTY COALITION AND THE MBPC HAD SCHEDULED ACTIVITIES OPEN FOR VILLAGE RESIDENTS PARTICIPATION.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

THE PUBLIC IS AFFORDED OPPORTUNITIES TO PARTICIPATE IN VILLAGE MATTERS INVOLVING STORMWATER, THE ENVIRONMENT AND BUDGETS AT ADVERTIZED MEETINGS. DRAFT SWMPAR WAS POSTED ON THE VILLAGE WEBSITE AND PUBLIC COMMENTS WERE INVITED. RESIDENTS ARE INVITED TO PARTICIPATE IN THE NASSAU COUNTY COALITION & MBPC ACTIVITIES.

C. How many times was this observation measured or evaluated in this reporting period?

		2	6
--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

MAINTAIN AND SUSTAIN THE SWMP PLAN BY AFFORDING RESIDENTS OPPORTUNITY TO CONTINUE TO PARTICIPATE IN THE VILLAGE STORMWATER PROGRAM ISSUES. CONTINUE MEMBERSHIP IN THE COUNTY COALITION AND THE MANHASSET BAY PROTECTION COMMITTEE THEREBY AFFORDING RESIDENTS OPPORTUNITIES TO PARTICIPATE IN THEIR ACTIVITIES.

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

PERFORMED ANNUAL DRYWEATHER FLOW SCREENING ON THE ONE OUTFALL AND ALL 3 INTERCONNECTIONS TO DETECT THE POTENTIAL FOR AN ILLICIT DISCHARGE. PERFORMED STREET SIDE MONITORING ALONG WITH STREET MAINTENANCE. (VILLAGE OUTFALLS , STORM SEWER SHEDS AND DRAIN PIPING NETWORKS HAVE BEEN MAPPED IN PRIOR PROGRAM YEARS)

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

DRYWEATHER FLOW SCREENING WAS PERFORMED DURING THE YEAR AND NO INDICATION OF AN ILLICIT DISCHARGE WAS OBSERVED. STREET SIDE MONITORING SHOWED NO ILLICIT DISCHARGES. THIS METHOD IS EFFECTIVE FOR CHECKING FOR ILLICIT DISCHARGES. THE VILLAGE IS SERVED BY THE GREAT NECK SEWER DISTRICT SO THERE ARE NO PRIVATE SEPTIC SYSTEMS TO OVERFLOW OR FAIL.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

*(ex.: samples/participants/events)***D. Has your MS4 made progress toward this measurable goal during this reporting period?**
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

CONTINUE AND SUSTAIN THE CURRENT PROGRAM.

Minimum Control Measures 4 and 5.
Construction Site and Post-Construction Control

The information in this section is being reported (check one):

- On behalf of an individual MS4
 On behalf of a coalition

How many MS4s contributed to this report?

		1
--	--	---

1a. Has each MS4 contributing to this report adopted a law, ordinance or other regulatory mechanism that provides equivalent protection to the NYS SPDES General Permit for Stormwater Discharges from Construction Activities? Yes No

1b. Has each Town, City and/or Village contributing to this report documented that the law is equivalent to a NYSDEC Sample Local Law for Stormwater Management and Erosion and Sediment Control through either an attorney certification or using the NYSDEC Gap Analysis Workbook? Yes No NT

If Yes, Towns, Cities and Villages provide date of equivalent NYS Sample Local Law.

09/2004 03/2006 NT

2. Does your MS4/Coalition have a SWPPP review procedure in place? Yes No

3. How many Construction Stormwater Pollution Prevention Plans (SWPPPs) have been reviewed in this reporting period?

		0
--	--	---

4. Does your MS4/Coalition have a mechanism for receipt and consideration of public comments related to construction SWPPPs? Yes No NT

If Yes, how many public comments were received during this reporting period?

		0
--	--	---

5. Does your MS4/Coalition provide education and training for contractors about the local SWPPP process? Yes No

6. Identify which of the following types of enforcement actions you used during the reporting period for construction activities, indicate the number of actions, or note those for which you do not have authority:

- | | | | | | | | | | |

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

GOAL IS TO REVIEW ALL APPLICATIONS FOR DEVELOPMENT AND REDEVELOPMENT AND APPLY THE VILLAGE EROSION AND SEDIMENT CONTROL LAW WHEN THE SOIL DISTURBANCE THRESHOLD IS MET OR EXCEEDED. THERE ARE ONLY 3 LOTS > or = 1 AC AND THEY ARE OWNED BY THE VILLAGE.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

THERE WERE NO PROJECTS SUBJECT TO MCM 4/5 PERFORMED IN THE VILLAGE DURING THIS PROGRAM YEAR. THUS, THERE IS NOTHING TO OBSERVE OR EVALUATE.

C. How many times was this observation measured or evaluated in this reporting period?

			0
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

MCM 4/5 WILL PROBABLY NEVER APPLY TO THE VILLAGE DUE TO LOT SIZES. SHOULD A PROJECT THAT INVOLVES > or = 1 AC OF SOIL DISTURBANCE BE PROPOSED, THE VILLAGE WILL ENFORCE ITS ESC LOCAL LAW AND REQUIRE A SWPPP.

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report?

		1
--	--	---

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

<u>Operation/Activity/Facility</u>	<u>Addressed in SWMP?</u>		<u>Self-Assessment Operation/Activity/Facility performed within the past 3 years?</u>

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

- THE GOAL IS TO KEEP THE VILLAGE STREETS CLEAN TO PREVENT SILT AND SEDIMENT FROM ENTERING THE DRAINAGE SYSTEM - SWEEP AS REQUIRED
 -INSPECT THE STORM DRAIN SYSTEM ANNUALLY ; CLEAN AS REQUIRED
 - PROVIDE SOLID WASTE, RECYCLING SERVICES TO RESIDENTS AND ACCESS TO TOWN STOP PROGRAM.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

-THE VILLAGE STREETS AND ENVIRONS APPEAR CLEAN AND FREE OF TRASH AND DEBRIS.
 -THE DRAINAGE SYSTEM FUNCTIONS PROPERLY WITH NO OVERFLOW INDICATING THAT IT IS CLEAN.

C. How many times was this observation measured or evaluated in this reporting period?

			2
--	--	--	---

*(ex.: samples/participants/events)***D. Has your MS4 made progress toward this measurable goal during this reporting period?**

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

MAINTAIN AND SUSTAIN THE EXISTING PROGRAM.
